The President and Gen. Lee.

e following is from the N. Y. *World's* ac- t of the interview between the President Jeneral Lee on the 12th May.

e interview took place in the ordinary re- on-room of the mansion, and lasted just an hour. It was strictly private, but it ecome known that the President desired ad out exactly what were the sentiments eneral Lee generally as regards the con- n of the South, and especially as to the lition of affairs in his own State of Vir- . General Lee, it has transpired, pretty h reiterated the sentiments of his letter ast year to General Rosecrans, briefly de- ed that the people of Virginia accepted obligation of the Reconstruction Acts in l faith, and were conscientiously desirous ultivating and maintaining friendly rela- ons between the races and toward all well- osed incomers. Furthermore, that every *dition laid down by Congress* had been plied with by Virginia, and that the larger holders had succeeded in retaining the fidence of the late slave class, whom they treated equitably and kindly. He believed t the two things Virginia needed and de- d most was, first, a full restoration to the ion, and second, a thorough development the internal resources and works of the te. In regard to the present Constitution, eral Lee said there were parts of it on ich and for which the best men of the te would be glad to vote, but that if they or were to have anything to say as to the de of submission, he hoped the proscrip- a and disfranchising clauses might be re- ed separately. If this was done, he be- ed that they would be rejected, while the ainder of what, on the whole, was not an ectionable document, would be adopted l State and Congress men elected eremto who could, in record and oath, mply with the laws of Congress. He re- red to the mission of the Committee of em- nt Virginians who came on last Winter, d to the recent surrender of their ticket and adoption of the Conservative Republican ket on the part of the Richmond Conven- n. That action met his approval, and it t the approval of all whom he considered most conscientious and unselfish men in the ate. Indeed, except as to preferring one set to be a set of adventurers, and except ing not to be proscribed, there was tantially no difference between the par- s in Virginia, if, indeed, there were two par- s. This statement was drawn out of Gen. e by a series of questions correlated to the ocessive points of the utterance. The in- view was cordial and full, and the Presi- nt is understood to have expressed his in- ation of submitting the disfranchising clause d other objectionable clauses of the Virginia nstitution to a separate vote. He said he d intended to do so from the first, and rther promised that a perfectly fair election ould be held. He concluded by expressing s hope that Virginia would soon be ready a full restoration of her political relations the Union, and with mutual terms of satis- ction at the interview, the two Generals . This is the first time that Lee and rant have met since each parted under the pple tree, April 9, 1865.

SADLY DEMORALIZED.—Lucille Western got morselves in Salt Lake, if we may believe correspondent, who writes to the Corinne , under date of April 19th. He says: On Saturday night Miss Western was so ly drunk that she could not play her part. he was unable to say her lines, and could ve only the cues, and sometimes not even . The play was 'Foul Play,' and in the upon the desert island, where she has to the platform to light the beacon fire, s fell flat at the foot of the stairs, and had to be picked up by one of the performers. It as foul play indeed."

A man acting as midwife at Houghton, Michigan, asserts that, on a recent occasion , she was holding a child two weeks old her arms, and a physician was preparing a for its mother, the child raised and in a pleading tone," the word twice. She (the midwife) recog- ed this as a warning, and urged that the should not be taken, but her sug- was not heeded. Again, when the was being taken by the mother, child repeated its "warning," and be- e a day had the woman was dead.

Auber, like Moliere and a great many other en of genius, has a woman servant about m, who makes him feel her influence sharp- , and who has managed his house for fifty . Some time ago she was grumbling erly at the immense amount of exertion e had to go through in the day. "Well," d her master, good humoredly, "look at e, Sophie, I work hard enough—I am al- ys at work." "You, indeed!" she exclaimed. A fine sort of labor, truly! Why, you work ..."

NEW WOOLEN MILL.—The *Patriot* says at the capital stock of the company lately in San Jose, for the manufacture of goods, is to be $100,000, and that ready $79,000 have been subscribed and ledged.

THE WILLAMETTE FARMER.

Devoted to Agriculture, and the other Industrial Interests of the North Pacific Coast.

RECOMMENDED BY THE STATE AGRICULTURAL SOCIETY.

THE NECESSITY WHICH HAS SO LONG EXisted in Oregon for a journal where Farmers and other laboring men could meet and discuss their mutual interests, is obviated by the establishment of the WILLAMETTE FARMER.
The paper will advocate and labor for all interests that will advance the prosperity of the Farmer and Mechanic; and will have in view especially the encouragement of the cultivation and improvement of the soil, and the agricultural development of the State; fostering every branch of mechanical and household arts calculated to increase the happiness of home life; and extending and facilitating the various branches of Agriculture, Stock-Raising, and Mining and mining interests.
Especial attention will be paid to the department of

Domestic and Eastern News,

And the subscribers to the FARMER will receive each week a careful and complete synopsis of all the news of the State and adjoining Territories, compiled from our exchanges and other sources, as well as a summary of Eastern telegraphic news,—thus furnishing our readers a complete

ORTON'S PREPARATION!

ESTABLISHED 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco, in any person, no matter how strong the habit may exist the money will be refunded. It is perfectly safe and harmless to all, and is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation, there is not the least trouble. Hundreds have used it who are willing to bear witness to the fact that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the person as free from any desire for it, as before he commenced its use. The Preparation acts directly upon the same glands and secretions affected by Tobacco, and through these upon the blood, thoroughly cleaning the system of the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco. *No more hankering for Tobacco after using Orton's Preparation. Recollect it is warranted.*
The time taken to allay all desire for Tobacco by the use of the Preparation varies *slightly* in different persons, the *average* time being about *Five* days. Some have no desire for Tobacco whatever after using the Preparation *Two* days.
The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO.

RECOMMENDATIONS

The following are a few selected from the multitude of recommendations in our possession:
We, the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly* and *permanently*, and without any bad effect upon the health, and without creating an appetite *rather for the Preparation* or *any substitute.*

From Samuel Cassidy, Editor Journal & Argus.
PETALUMA, CALIFORNIA, Dec 14, 1868
For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I *determined if possible to break myself* of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite for Tobacco I offer this testimonial.
SAMUEL CESSIDLY.

☞ *Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorized Agents.*
The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with passage paid on receipt of price.
How to send money by mail.—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail as above directed at my risk. Address

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.
It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.
It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity
Persons afflicted with the distressing maladies of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

Mr. Norris moved to indefinitely postpone the [illegible] upon which quite a spirited discussion arose, Councilmen Norris and Hopkins favoring, and Councilmen Breck and Hallock opposing the motion to postpone. The motion was carried. Yeas—Councilmen Besser, Hopkins, Lewis, Norris, Porter and Ripley, 6; noes—Councilmen Cree and Hallock, 2.

MISCELLANEOUS.

An order instructing the Auditor to give notice of the proposed improvement of certain streets was read and adopted.

An ordinance was read and adopted, authorizing the Mayor to expend the sum of $1,000 in defraying the expenses of celebrating the Fourth of July.

Council adjourned.

THE MURDER.—The telegraph informed us yesterday that a man named Frank Vaughn had been killed by a man named Larkin, in the southern part of this county, last Saturday, and that Vaughn was under arrest and had been taken before Justice Smith, at Oregon City. We have some particulars of the killing, as elicited by the examination. It appears that last week a road supervisor was laying out a new road through Vaughn's place, and that upon his approaching Vaughn's place the latter confronted the supervisor and the men with a gun and threatened to shoot the first man who made an attempt to open his fence. The supervisor secured a warrant was got out for Vaughn's arrest. [illegible] in whose hands the writ was placed, and the three men, among whom was A. [illegible] and proceeded to Vaughn's house. Vaughn was in the brush and was not found. His son, Frank [illegible], was in the house, and upon the arrival of the party one of them who approached the window ordered that if there would be a row. The man [illegible] back to the party, and after a short conference [illegible] it was agreed that Frank should be told that they did not come to have a row with him or anybody else, but they wanted to arrest his father. Accordingly, one of them again approached the house, Larkin and another [illegible] out into the road. Young Vaughn asked the men if they were armed, to which one of them replied that none of them was armed unless it might be [illegible]. Upon this, Vaughn rushed out of the house and [illegible] "Is Larkin?" went out into the road, addressed Larkin, and when within a short distance drew a revolver from out his coat sleeve and fired at Larkin, hitting him each time. Larkin [illegible] them step a number and fired two more shots. The testimony was not a clear that either shot would have been fatal, probably. Young Vaughn came to Oregon City on Monday and went on board the [illegible] she was ready to start, where he was arrested by Myers. The examination was conducted by Messrs. Johnson & McCowan for the State, and Page & Monlat for the prisoner. We have not learned, as the examination was still going on when we left Oregon City.

REPUBLICAN NOMINATIONS IN COWLITZ COUNTY, W. T.—Mr. [illegible] Flo writes us that the Republicans of Cowlitz county held their Convention on Saturday last and nominated the following ticket: Joint Representative, [illegible] Barlow; Auditor, W. W. Lewis; Sheriff, [illegible]; Probate Judge, Benj. Huntington; Treasurer, Mat. Stone; School Superintendent, ——; County Commissioners, A. Abernethy, T. Dray, Mr [illegible] Geo. Abernathy; Coroner, Dr. C. O. [illegible] Dr. Caples, A. Abernethy and Mr. Carpenter were appointed a County Committee. Our correspondent [illegible] the visit of Dirty-shirt Ben and the fossil to Prospect, whence, he says, they made such [illegible] democratic speeches as disgusted the Democrats present. He expresses the hope that both of them will visit and speak at all the towns in Washington Territory, as the Republicans can wish for no more [illegible] than for Garfield. The old Fossil's [illegible] grief was that our country is about to be [illegible] into war with England, France and Spain, in the event which, England will land 500,000 troops on the Atlantic coast and take possession of all the [illegible] and turn loose all the Indians of this [illegible] upon the defenceless people to scalp every man, woman and child of them! Dirty Ben went after the Chinamen and Siwash, in his usual style—said he threw bells at home—was for taxing government bonds, and paying the public debt in greenbacks—thought [illegible] should be allowed to marry our sisters—hoped the carpet-baggers would be cleaned out, by ballot or bullet—argued ironically that he was himself, about as good as a nigger—there a wench named Silvia, [illegible] audibly that for her part she would prefer a [illegible]—and then Ben subsided. A bottle of whisky then went round and the meeting broke up in a jolly [illegible] drunk.

A HINT ON HOTEL KEEPERS.—The keepers of hotels are frequently the subjects of jokes of a decidedly practical character. One of our Portlands was not long since victimized in the following manner: A. B. went to him and engaged board by the week at $10 per week. "Now," said A. B. "I may be absent occasionally; what deduction will you make for that?" "Fifty cents a meal and fifty cents a lodging," replied the landlord. Time went on and A. B. was sometimes there and sometimes not. At last while the landlord presented his bill for three weeks board—$30. In a short time A. B. appeared with a bill of deductions for meals and lodgings missed. Meals eaten; three, $1 50; lodgings seven, $3 50; meals sixty, $30; lodgings missed, fourteen, $7; balance in favor of A. B., $2 00. Landlord, of course, was astonished at the result of the reckoning and, said not a word, for the best of reasons, that he didn't think of anything that would do justice to the occasion. Whereupon, A. B. to relieve the landlord's mind, remarked with cool urbanity, "Well, never mind the few dollars; I'll take it out in board." Landlord didn't see how he was to keep even with such a [illegible], and so the connection between him and A. B. as landlord and boarder came to an end.

APPOINTMENT AND APPOINTMENT.—The *Commercial* says that Judge Olney, who some two years since was appointed Superintendent of the new custom house, to be built at Astoria, has resigned; and that a Mr J. W. [illegible] has been appointed in his place, who will shortly arrive to superintend the work. We are not apprised as to what is the cause of this resignation of the Judge, but presume that it is attributable to his ill health.

BOYS WILL BE A POWDER EXPLOSION.—We are informed, says the *Commercial*, that on last Sabbath, three small boys living in Astoria, took a can of powder into the back of town, and in endeavoring to load and fire an old shot-gun barrel, the can, which was nearly full of powder, exploded in the hands of one of the boys. His hands and face were terribly burned, and his hair nearly all singed off of his head.

BAD CONDITION.—The old McAdamized portion of Front street, between Morrison and Madison, is in a horrible condition, the surface being cut into countless holes. Driving over a frozen potato patch could hardly be worse. While the improvement of back streets and down town is going on in such lively style, wouldn't it be about a fair thing to bestow a little attention and a few loads of gravel upon Front street?

STRAWBERRY FESTIVAL.—We are informed that the ladies of the Unitarian Church of this city, contemplate giving a strawberry festival, at the Washington Guard's Armory on the first of June. This will be a pleasant way of spending an evening and at the same time assist the ladies of the church; and we presume we shall have many such festivals during the strawberry season. Good luck to them all, say we.

SALMON.—We are indebted to Mr. Harbough for one of those fine Chinook salmon.

THE LATE FIRE AT HELENA.—We have received a copy of the Montana *News Letter* of May 1st, in which we find a detailed account of the great fire at Helena April 28th, together with statements of the losses and insurances. The total loss was about $800,000, principally in buildings situated in the business part of the city. There were burned 10 stores, 22 saloons, 6 hotels 2 assay offices, 4 jewelry stores 3 livery stables 3 photograph galleries 6 barber shops, 4 meat markets 3 dining stores 2 billiard halls and half a dozen doctors' offices. All the fire proof buildings except one on the burnt district were saved. In this there was a large amount of goods destroyed. The underground cellars answered the purposes for which they were designed, very well. The value of goods saved in the fire proofs and cellars is given at $424,000. The insurances by owners amounted to about $60,000 in the Home Insurance Company of Connecticut, $5,250 in the People's Insurance Company of California; $2,500 in the Phoenix of Connecticut $82,000 in the Pacific of California. Total insurance, $158,750.

PERSONAL.—Mr S. G. Reed and wife, who have been spending several months at Washington and the East, arrived home by stage Tuesday evening. They came by railroad to Sacramento and thence by stage to Portland.

Mr C. M. Carter received Tuesday evening a letter from Judge Hoffman, who, at the time of writing, was resting with his family, for a few days at Boise City. He said that he would be home in a few days, and we presume that he may be expected this week.

Messrs. Meacham and Huntington, the new and the old Superintendent of Indian Affairs, arrived in town yesterday. Mr Meacham is now in possession of the Superintendent's office. They will each remain here for a day or two.

Brother Ireland of the Oregon City *Enterprise*, gave us a call last evening. We find him enjoying his usual degree of "good will toward all men."

WHO KNOWS?—Mr Dowell writes from Washington to the *Sentinel* that the Custom House and Post Office at Portland will be commenced as soon as the Secretary of the Interior is notified that the State has ceded to the United States the jurisdiction of the site. We believe our Legislature has not acted in this matter; at any rate the Secretary of the Interior has received no notice of it. If the resolution had passed, our Secretary of State would no doubt have forwarded it long ago. Who knows anything about it?

THE GLORIOUS FOURTH.—Everybody should remember the meeting at the Council Chamber this evening to make arrangements for celebrating the coming Fourth of July. A full attendance of the citizens is requested and we hope to see a large number present, as the time is now fully at hand to take definite steps toward permanent arrangements for the due observance of our great National day. Turn out, everybody.

MILITARY SUPPLIES.—By advertisement in this paper it will be seen that the Chief Quartermaster will receive sealed proposals till noon of Tuesday, the 25th inst., for the transportation of military supplies to various camps and forts in this Department. For specifications see the advertisement on third page.

SASH AND DOOR FACTORY.—Messrs. Carson & Porter are engaged in putting up the machinery in their new sash and door factory at North Portland. Only a small part of the machinery, however, has arrived.

GREEN PEAS.—Mr. George Herrall has had green peas of Oregon growth at his produce store, since Friday, the 14th. This is about as early as any in the State. We are indebted to Mr. H. for a specimen "mess."

CATTLE DRIVING.—A large drove of sheep—perhaps, 1,000 head—were driven through our streets, yesterday. The owners are Messrs Burton & Job, who are taking them to Umatilla county.

FROM THE COUNTRY.—The teams and retail buyers from the country were decidedly numerous, yesterday, considering the mist-y character of the day.

HOURS OF SAILING.—The *Gussie Telfair* will sail for Victoria, etc., at 5 A. M. to-morrow. The *George S. Wright* will sail at 6 P. M. to-day.

PROPOSALS WANTED.—See advertisement for proposals to repair engine houses No. 2 and 3 and Hook & Ladder Co.'s house.

SEALED PROPOSALS IN TRIPLICATE ARE INvited, and will be received at the Office of the ACTING COMMISSARIES OF SUBSISTENCE, at each of the following named Military Posts until 12 M. on FRIDAY 28th inst. for delivery of
FRESH BEEF!
to Troops and others who may receive subsistence at Fort Stevens, Oregon; Fort Cape Disappointment, Fort Vancouver and Camp San Juan Island, W. T. from July 1, 1869, to June 30, 1870.
Written prices will be required and they must be stated in coin, but payment will be made monthly by the Commissary at each Post, in the equivalent of coin, for the quantity of Fresh Beef accepted at the Post, during the month.
The United States reserves the right to reject any or all bids and the expense of this advertisement inserted in three News papers, and of printing posters to the same effect will be divided among the successful bidders *pro rata*. This condition must be expressed in the bid or must be understood by each bidder whose proposal is entertained. Any necessary information solicited by persons not familiar with the manner, etc., of making Proposals, quality of the Beef required, times of delivery, etc., will be cheerfully given at the office of the Commissary of the Post concerned. Acceptable bonds will be required, and no bid will be entertained from strangers, unless the bid be accompanied by guarantee of proper party that the proper bond will be given and the agreement duly executed.
AT THE SAME HOUR, ON THE SAME DAY, and under essentially the same conditions as above, TRIPLICATE sealed proposals will be received at *this* office for furnishing and delivering
BEEF CATTLE AND MUTTON SHEEP,

THURSDAY MORNING MAY 20, 1869

A Constant Source of Alarm.

Every now and then we have a telegraphic dispatch which produces general consternation among our Democratic friends. The other day Fred Douglass was reported as saying at a meeting of the Anti-Slavery Society, that "the amalgamation of the white and negro races was certain." Thereupon our neighbor of the *Herald* was thrown into a paroxysm of terror, lest Democrats, good and white, should be compelled to abandon their awful wives and submit to the conjugal embraces of Chloe and Dinah! But he would not Fred Douglass know that this thing should not be consummated without a protest, and the *Herald* therefore gave a screaming article in which the horrors of such alliances were depicted in the most fearful colors. It was truly touching to see that paper come to the rescue of our beautiful and blooming maidens, and try to save them from the horrible fate of "marrying niggers." Hardly had this perturbation subsided when the telegraph, malapert instrument that it is, reported that somebody said that President Grant was about to recommend the employment of some negroes in Postoffices, and that the Public Printer at Washington was about to employ some colored compositors; when, sad to tell, the same terror of "amalgamation" instantly seized our neighbor of the *Commercial* and moved him to utter a piercing shriek of distress and alarm at the hideous prospect. "Amalgamation," says he, "will hereafter be a cardinal principle of the Radicals,—prepare for its promulgation!" Now we pity the distress of our neighbors; we can imagine nothing more pitiful than to see the proud Caucasian struggling heroically, though helplessly, against enforced matrimonial alliances with an inferior and hated race. Every white man and woman of Republican faith will tender a generous and gushing sympathy to their brethren and sisters of the Democratic persuasion, who are in this dreadful dilemma. For, Republicans are not at all alarmed for themselves on this subject; they know that they are in no danger. But they can feel, and keenly feel, another's woe; and when they look at the census reports from the Southern States they are not prepared to deny that there is danger of the amalgamation of negroes and Democrats. Our only hope is that the negroes, since obtaining their freedom, will be more averse than formerly to amalgamation. Nevertheless our Democratic friends should not give up in despair. They should for the sake of decent appearance, if for no other reason, assume a virtue if they have it not. The fears which they express are not at all complimentary to themselves. But let them remember the observation which Portia's maid, Nerissa, in the *Merchant of Venice*, made to her mistres:—

> "The sacint saying is no heresy;
> Hanging and wiving go by destiny:—

and console themselves with the reflection that their fortune must be as fate wills it, and that it is idle to protest or complain. Yet we earnestly desire that good fate will stand fast to their marrying in every instance with persons of their own race.

The Income Tax.

It can hardly be denied that a modification of the income tax, so stated in such a way as to more nearly equalize it between the wealthy and persons in moderate circumstances, would be a judicious measure. It is well known that the wealthy classes do not pay their just proportion of this tax. They avoid it in one way or another; while persons of small income, especially those who receive fixed salaries, pay on the last dollar. The intent of the framers of the law was that it should operate equally on all incomes; but such has not been its result. Those incomes which can be easily known, being received by persons of moderate means, are in general promptly returned to the Assessors, and the tax on them promptly paid; but the tax on a large class of heavy incomes which are derived from speculative industry, is often shirked, the parties publishing vague and untrue returns and compromising with their consciences on some plea or other invented for the purpose. In this way many rich men who live in grand style and command hundreds of thousands of dollars for the purposes of speculation, go on from year to year, paying little or nothing, though spending for their living thousands of dollars over the amount exempted by law. On the other hand the men of fixed salaries and hard and constant work, are duly reported for every dollar over their lawful allowance, and thus bear more than their share of this burden. Many men who are reputed wealthy get off with less tax on their incomes than others whose salaries and profits in a small business are merely sufficient for the support of themselves and families. For instance, the richest man on the Pacific coast, a citizen of San Francisco, last year did not pay a dollar of income tax; for though his actual income no doubt amounted to many thousands, he offset it with vague and imaginary losses, and so played entirely. It is not to be expected that the law will be repealed and this tax removed, for the necessities of the Government will not allow it; but the law may be modified in such a manner as to make the tax bear more equally and justly on the people, and Congress ought to give the matter proper attention.

In General!

The *Herald* says the real issue in Washington Territory is the fifteenth amendment. Now, wouldn't it be a dreadful blow to the amendment if a Democratic Legislature should be elected over there and proceed to reject it? And wouldn't it be a dreadful blow to the Republican party? They can do this quite as well as the last Legislature of Oregon could annul the fourteenth amendment after it had become part of the Constitution.

The Richmond *Whig* does not like the course of the Northern Democracy toward the South. It says: "They meanly appeal to a crushed, bleeding and broken-hearted people to sacrifice the last feeble remnant of their political and social existence, in order that they (the Northern Democracy) may be saved from the operation of the XVth amendment. Nothing more shameful has occurred in these days of degeneracy and profligacy."

It is said that Mr. Councilman Hallock's understrappers have a scheme for keeping that gentleman in the City Council. Fearing to renominate him lest he should be beaten even in that Democratic stronghold, the First Ward, they will consent to the nomination of another person and use all their efforts to elect Councilmen in the other Wards, and so keep a majority in that body. Then one of the members for the First Ward is to resign very obligingly, and the Council is to elect Hallock to fill the vacancy. This pretty and ingenious scheme was probably invented by Mr Hallock himself, and may be taken as a modest confession of his great popularity in the First Ward.

Vallandigham is attempting to show that it was not he who caused the defeat of Mr Chase at the nominating Convention. He argues that if Seymour had proposed the nomination of Chase, "Chase would have been nominated, and President to-day, and the Democratic party, with its bold, brave men at the front, in power. It is terrible to reflect what Democracy is coming to when Vallandigham regrets that Chase, the blackest of all the original Black Republicans, and still the foremost of all the leaders in the "negro equality" movement, was not accepted last summer as the Democratic candidate."

THE PREMIUM ON GOLD.—The advance in gold in the United States is due in no small degree to the stringency of the money market in Europe. The bank of England recently raised its rate of interest from three to four and a-half per cent., and United States securities were, of course, affected by this advance. Again, the export of bonds to Europe has recently been greatly diminished, and this has caused an increased export of treasure to supply their place, which in turn has had the effect to still further advance the premium on gold in New York. Recent rumors of war have also operated disadvantageously upon the gold market, and these rumors have been magnified for speculative purposes. But nothing has occurred which should impair public confidence in the credit of the United States. The Government is now being conducted more economically than it has been for years. The revenues are increasing and the expenditures are diminishing. At no former time has there been so much business enterprise in the country, or so many or so great schemes for the advancement of commercial interests and public improvements. At no former time has the country increased more rapidly in wealth or witnessed the construction of more railroads, mills and dwellings. All our cities are growing as if by magic, and there is corresponding progress in the country. These are facts which cannot be ignored or denied. We think therefore that the depression of our securities is temporary, and that the special causes now operating will ere long be removed, when they will advance again.

OREGON.

On Monday next S. W. King will begin the Lafayette school. He is under engagement for a year.

Wild strawberries are now ripening throughout the valley. There are none which can beat those in historic Yamhill.

A Fourth of July celebration will be given at Independence, Polk county. The committees, including the committee on dinner, are announced.

The La Grande paper says: Col. Hudnutt, of the branch U. P. R. R., has received orders from the headquarters at Omaha to report himself at Salt Lake. The surveying corps will continue down the Umatilla river to the Columbia and probably there be discharged. The failure of the branch to get any assistance from Congress has suspended operations with them for the present.

In the report of the proceedings of the Bible Society of Oregon, the following is given as the labors of this gentleman during the past year: I. D. Driver, the agent of the American Bible Society, has visited twenty two branch societies, organized two, delivered one hundred and thirty-one sermons and addresses on the Bible cause, and traveled 5,147 miles on official business, and employed five colporteurs. He has collected by subscriptions, &c., $1,554 72; by sale of books, $35; and received land donations in Missouri and Kentucky, 400 acres, valued at $8,000. He has paid for traveling expenses, postage, stationery, &c., $158 58. Visited 1,504 families, found 120 families destitute of the Holy Scriptures—supplied 183 destitute families; 17 families refused the Bible. Distributed 85 Bibles to soldiers and emigrants, and supplied four sabbath schools.

Symptoms of Old Maidishness.

A Scotch paper thus details them:

When a woman begins to drink her tea without sugar—that's a symptom.

When a women begins to read love stories abed—that's a symptom.

When a woman gives a sigh on hearing of a wedding—that's a symptom.

When a woman begins to say that she's refused many an offer—that's a symptom.

When a woman begins to say what a dreadful set of creatures men are, and that she wouldn't be bothered with one for all the world—that's a symptom.

When a woman begins to have a little dog trotting after her—that's a symptom.

When a woman begins to have a cat at her elbow at meal times, and gives it sweetened milk—that's a symptom.

When a woman begins to be ashamed to take off her bonnet in a gentleman's company because she's no cap on—that's a symptom.

When a woman begins to change her shoes every time she comes into the house after a walk—that's a symptom.

When a woman begins to say that a servant lass has no business to have a sweetheart—that's a symptom.

When a woman begins to rub her fingers over the chairs and tables to see if they are dusty—that's a symptom.

When a woman begins to go to bed with her stockings and a flannel nightcap on—that's a symptom.

When a woman begins to put her finger before her mouth when talking to any one, for fear they should see she's lusing her teeth—that's a symptom.

When a woman begins to talk about rheumatism in her knees and elbows—that's a symptom.

When a woman begins to find fault with her looking glass, and says it does not show the features right—that's a symptom.

When a woman begins talking about cold drafts, and stops up all the crevices in the doors and windows—that's a symptom.

MILITARY STRENGTH OF NATIONS.—The comparative strength of European nations, which are so often reported as assuming a menacing attitude towards each other, is a matter of interest as the prospects of war increase. This strength so far as represented by men, according to the latest estimates, is as follows:

Russia, 1,400,000; Prussia, 1,230,000. France, 1,350,000; Austria, 1,100,000, Italy, 480,000.

A few days ago it was officially announced that France could bring into the field, on 30 days' notice, 1,100,000 men.

In the event of a great European war, Russia and Prussia are likely to be arrayed on one side, with France and Austria on the other. The allied forces would foot up thus. Russia and Prussia, 2,630,000; France and Austria, 2,450,000.

The rating of England one of the Great Powers does not appear. She is not likely to be involved in European complications. And were she to be drawn into war, the fighting would be done in great part on the sea. England seeks peace and the care of her millions whom must have daily bread, and for who war would, sooner or later, mean famine. It has become common, of late, to taunt England with a growing weakness and aversion to war. There is no evidence that she is not as strong in war resources as at any former period of her history. The little brush with Abyssinia revealed the fact that the military spirit was not lost, but only held subordinate to the arts of peace.

MORE KU KLUX OUTRAGES. The Santa Cruz *Times*, May 8th, says:

Within a short time we have had quite a little demonstration of these noble specimens of the *white man's party*, the Ku Klux Klan. Some of them entered the house of John W Jarvis, at Vine Hill, during his absence and that of his wife, drove some Chinamen off after horribly maltreating them, abused and terrified the children, declared their intention to Democratize the whole county, broke open the wine cellar and stole, broke and raised Cain generally with things. One of the party has been arrested. The officers are on the track of the rest of the party.

A well-known physician used to say that roast beef, serenity of mind, cold water baths, and an amiable and pretty wife, would make a man healthy, wealthy and wise.

DISPATCHES TO THE OREGONIAN.

DATES TO MAY 18.

Commercial Convention at Memphis.

MEMPHIS, May 18.—It is clear and pleasant and everything conspires to make the opening day of the Commercial Convention auspicious. The delegates marched in procession preceded by a band to the Opera House, which was decorated. Long before noon the house was crowded with delegates and visitors. The delegates were officially welcomed by the Mayor. Gov. Patton, of Georgia, was chosen temporary chairman. The following States were represented: North Carolina, Missouri, Iowa, Alabama, Ohio, Virginia, Indiana, Mississippi, Georgia, Arkansas, West Virginia, Louisiana, South Carolina, Tennessee, California, and Kentucky. After the forenoon session, a letter from Gen. Lee was read amid tremendous applause, regretting his inability to be present. Gov. Charles C. Anderson, of Kentucky, formerly Lieut. Gov. of Ohio, was elected permanent President, with a number of Vice Presidents and Secretaries. Senator Fowler addressed the convention which then adjourned for to day.

From Cuba.

HAVANA, May 18.—The reports formerly received from both sources greatly exaggerated the fight at Los Minow, which proves to have been a skirmish, and the forces of both sides in the interior are suffering from fevers. It is said many soldiers are dying from want of shelter and medical treatment. They are running the Puerto Principe and Neuvitas railroad. Another battalion of negro troops has left for service in the field. *Diocco* contains a report that the insurgents have burned the towns of Sabiona, Caseorro and Guernoro, but the *Vice De Cuba* doubts the truth of the report.

NEW YORK, May 18.—One man who enlisted on the Cuban steamer *Grapeshot* returned from Beaufort last night. He reports that the vessel is still at Beaufort, detained by the United State authorities by the order of Secretary Fish.

Miscellaneous

CHICAGO, May 18.—Late advices from New Orleans report that Kinsadle, the principal agent of the Treasury Department in that city, who has been making investigations into Customs frauds in that neighborhood, has been ordered to seize all coffee, sugar and pepper at St. Louis, Cincinnati, Louisville and Chicago shipped from New Orleans. The agent reports that heavy seizures have already been made at St. Louis and Chicago.

GALVESTON, May 18.—Gen. Reynolds to-day informed the Chairman of the Republican Executive Committee of Texas, that he had selected all the Registers for the State, and if the President issues an order for an election in Texas, it could be held in July at the time designated by the late Convention.

BOSTON, May 18.—The fifty eighth anniversary of the American Baptist Missionary Union was held to-day. Delegates were present from Wales and Ireland.

SCRANTON, Pa., May 18.—The Delaware Lackawanna and Western Miners Coal Companies' mines, and several others, numbering more than 500, are and have been at work.

PHILADELPHIA, May 18.—Geo. Hood, business manager of the Academy of Music, died this morning.

Gen. James S. Negly, nominated for Congress, was to-day married to Miss Grace Ashton, at the Methodist church, on Green street. A large number were present, including many army officers.

Dispatch from Salt Lake.

SALT LAKE, May 19.—Latest accounts from South Pass say that on the night of the 17th the Indians drove off a number of horses from near Atlantic City. On the 18th a band of 25 Indians made their appearance between Miner's Delight and Atlantic City, and attacked several parties of whites. Three men are missing. The citizens are organizing a company to go in search of them. They say they are Sioux Indians.

BY ATLANTIC CABLE.

LONDON, May 18.—Reverdy Johnson has written to the authorities at Southampton that he will not attend the banquet given in his honor. He took occasion to express his gratification at the extinction of the late apprehensions of unfriendly relations between England and America, and felt assured that the people of both countries regard war as the direst calamity.

Lord Stanley, to day, in an article on the *Alabama* treaty, says the idea of waiting for further expressions from Parliament and Congress commits the business to indefinite postponement. England's sentiments have been duly pronounced and she is still prepared to submit to a proper tribunal the question of wrongs and damages, but any attempt to reopen the controversy on preposterous grounds, whatever American sentiment may be, is absurd. From this position England cannot recede.

PARIS, May 18.—The election in this vicinity is likely to result favorably to the opposition, but the general result throughout the country leaves little hope for that party.

Negotiations for a Conference between France and Belgium are completed. The session of Conference will open in this city at an early day.

DUBLIN, May 18.—A rich Bishop, Cashel, in a pastoral letter refers to the recent outrages committed in the south of Ireland. He laments that a band of a few desperadoes should tarnish the name of Tipperary and emphatically denies the existence of any conspiracy. He says these outrages are the result of the unhappy relations between landlord and tenant, and a settlement of the land question will be sure to diminish the number of such unfortunate occurrences. The pastoral letter bids the distasteful tenants to look to the Imperial Legislature for hope, and points out the danger of estranging England by the commission of such outrages as have been recently perpetrated.

MADRID, May 19.—Figueroa, Minister of Finance, to-day submitted the budget to the Cortes.

ALEXANDRIA, Egypt, May 18.—The Viceroy of Egypt sailed from here yesterday on a tour through Europe.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, May 19.—Mrs. Dora Marks was convicted of assault and battery in the Police Court, to day. She was seen last evening charging along Dupont street, knocking down Chinese boys, and making war on China generallily. She will be sentenced to morrow.

W. N. Trim was indicted and tried for arson in the second degree. He was taken to the States Prison, but brought back again on some technicality. He will be again sentenced next Friday.

It has been raining all the afternoon quite hard.

Monetary

Gold in New York to day, 142¼.

Legal tenders, 71@72.

Stocks very weak to day. The upward tendency of gold makes our money market still tighter.

The Ophir has levied an assessment of $3 per share.

Real estate is declining, despite the attempts to puff it up. At an auction sale of choice property, to day, nearly all of the best property was withdrawn for want of bidders. The inflation has been unnatural and prices must soon settle down to legitimate values.

Another land riot is threatened on Scott street, back of the Protestant Orphan Asylum. One arrest has been made, but the demonstrations are still warlike.

The man who stole a hot stove from Braverman & Levy, yesterday, was arrested to day with the property in his possession. He gave his name as John Brown.

Monetary

At three o'clock this afternoon gold reached 143¾ in New York.

Calvary church will be sold next Monday night. It is expected that they will realize enough to pay the debt of sixty five thousand dollars.

A very slight shock of earthquake was felt at 11 last to day.

NEVADA

VIRGINIA, May 19.—The shafts of the Crown Point and Kentuck mines were reopened last evening. There are no appearances of fire, and hoisting ore from the Kentuck was resumed this P. M., and it was thought work on Crown Point would be commenced to day.

A. K. P. Safford, the newly appointed Governor of Arizona, will leave here to-morrow night for the theater of his official labors.

A wild buffalo made its appearance on our streets this P. M. and swallowed a greased velocipede.

It stormed continuously from yesterday P. M. till to day noon, snowing during the night, and this morning the hill tops are yet white with beautiful snow.

BY STATE TELEGRAPH

CANYONVILLE, May 19.—The suit brought by Abrahams in Judge Kelsay's court, at Roseburg, against the Oregon and California Stage Company, claiming a hundred thousand dollars damages for the breaking of Abrahams' leg, has been continued to the October term as far as E. Corbett is concerned. The balance of the defendants have been ordered to appear before Judge Deady, of the United States District Court.

THE WEST.

According to letters from White Pine, sickness is alarmingly on the increase in that country. Small pox and pneumonia are the most prevalent and fatal diseases.

In a jeweller's window in Sacramento are exhibited three silver bricks with the following text attached: "What we got at White Pine—value, $12; cost to get them, $783 59.

A note from Freeport, W. T., May 18th, says Ben Hayden spoke at this place yesterday and proved to the complete satisfaction of all Democrats present that the 'nigger' is sure to come out ahead of them."

The Idaho *World* says that Abraham Bergen, lately appointed Associate Justice of New Mexico was once a resident of Jacksonville, Oregon, and was the law partner of J. H. Reed, Esq., now a citizen of Portland.

Says the Owyhee *Tidal Wave*: We are in receipt of a new semi weekly paper, published at Boise City, called the *Boyse Vemvcat*. What it all means and what is its politics we are unable to conjecture. We will await further developments. Evidently some one has been putting a "head on it."

An Owyhee paper says: We understand that Jos Bury, of this place, has received the appointment of Postmaster for Silver City. Among other qualifications, Mr. Bury possesses the merits of being a most uncompromising Union man. The most difficult thing to comprehend in relation to the appointment is, that the appointee is a resident of the Territory.

Bro. Fitzgerald, of the San Francisco *Spectator* (the organ of the Methodist Episcopal Church South,) has a sharp eye to business. He says: "When you take a man into the Church, you put the *Spectator* into his hand at once." There's "biz for you." Don't baptise any penitent or admit him to the communion unless he furnishes evidence of his regenerate condition by showing a receipt for one year's subscription to Bro. Fitzgerald's paper.

A MEMBER OF THE OLD GUARD.—The San Francisco *Bulletin's* New York letter says: "One of the last survivors of Napoleon's Old Guard, Col. Louis Isidore Leclere, who served with the Emperor in the campaigns of Russia and Italy and fought his last military fight at Waterloo, died here last week and was buried in Greenwood. At the beginning of our war he felt the martial spirit reviving in him and organized the Fifty-fifth Regiment of New York Volunteers, but his health did not permit him to take the field. There are only three or four survivors of Napoleon's campaigns now living in this country. One of them is in New York, and on pleasant afternoons he delights to walk in Broadway and gaze at the gay throng that carry his thoughts back to the days of his youth. On the anniversary of the giant battles in which he fought he wears his decorations and takes great pleasure in telling the stories of his campaigns. Another of the veterans lives in Brooklyn, where he is a favorite among all who know him."

WHY HE VOTED FOR LONGSTREET.—"Were you in favor of Longstreet's confirmation?" I inquired of a noted Senator who lives Nye the Western coast. "Yes, I knew no more of Longstreet than Nicodemus knew of the second birth, but I voted for his confirmation on this principle. To illustrate: My mother used to make these old-fashioned doughnuts, and when she got her lard hot in the pot, she didn't waste any batter in it till she had first dropped in a little piece of the dough to see if the lard was all right. Now, Longstreet is that little piece of dough, don't you see? and if we find the lard all right, we'll drop in old Bob Lee and some of the bigger doughnuts."

The highest store rent paid in Broadway is that of E. S. Jaffray's dry goods store, corner of Leonard street, which brings $60,000. The highest hotel rent is that of the Fifth Avenue, which rents at $100,000 per annum; but the most profitable of all its edifices is Trinity Building. This is occupied by offices. It cost about $200,000, and rents for nearly one half that sum. Single offices bring from one to two thousand dollars, and the coal trade is almost entirely done there. A. T. Stewart's property on Broadway alone is worth about $5,000,000. W. B. Astor's real estate on Broadway is worth about $3,000,000. Lorillard estate has $8,000,000 invested in that thoroughfare.

REDUCTION IN THE PAY OF ARMY OFFICERS.—The effect of the Quartermaster-General's late order reducing the commutation for fuel, etc., was discovered by the officers at Washington, April 30th, when they came to receive their monthly pay. It makes a very material difference in the compensation of all officers, and in the case of the higher general officers the reduction is at the rate of $300 or $400 a year. The officers claim that the commutation they receive for quarters does not pay the rent of the necessary rooms, and that it is unjust to cut down their commutation for fuel in this manner.

A young man in England, who was lately sentenced to pay $25,000 damages for not marrying according to promise, settled the matter in a novel manner. He wrote to the young lady saying that he had "behaved infamously," but if she would only forget and forgive they might be happy. His friends had objected to this marriage on account of the young lady's poverty, but now that she was to have $25,000 of her own, that objection could no longer be valid. And so the young woman took him as a husband, in lieu of the $25,000 which the courts had decreed her.

The New York *World* says: "Judge Dowling's recent remark that he would rather see 'one adulterator of milk punished than fifty liquor dealers,' was suggested by observations of the deterioration caused by the former class in the quality of milk punch."

"THE BUNNELL HAT."—This is the coolest Hat that has ever been introduced in this market, and is very much in demand in all tropical climates. The price is low, and is for sale at MEUSSDORFFER BROS., corner of Front and Morrison streets.

PEOPLE SHAKE—not with fear as to the future of Portland, but with the *Ague*, which can be cured in six hours and no return of the chills or dumb ague or its kindred ills, by using our celebrated and sure *South Carolina Ague Cure*. It is sold at the reasonable price of $1 00 per bottle. Call at "The Oregon Dispensary" for your SPRING MEDICINES, for they are all pure, fresh and cheap and will be vouched for by the most eminent of the Medical Faculty in the city. Everybody patronizes the "Oregon Dispensary." In consequence of the above fact, and it requires five assistants to attend to the wants of our patrons. LORYEA & KALLENBERG, 73 First street, Portland.

THE RAILROAD TERMINUS.—By the arrival of the steamer *Oriflamme*, it will be positively known where the Railroad Terminus on the Sound will be established, and before long an army of men, equal to that of the grand Pacific Railroad, will be employed, who will build the road with all possible speed. The Depot, without further doubt, will be established at the well known house of KOHN & FISHEL, No. 91 Front street, where the finest, best and most stylish Clothing, Gents' Furnishing Goods and Dry Goods can always be had, at such low prices that the most crabbed purchasers must be pleased.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is conveniently safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MAY 18.

West Indies

NEW YORK, May 18.—Late advices from Porto Rico state that the Island is in great consternation. The principal street has been burned by incendiaries. Business is stopped and yellow fever and vomit are carrying off hundreds of Spanish soldiers. The hospitals are full and all the houses of the Spaniards were marked with a red hand. Circulars were distributed saying that all who were able were leaving the Island. Soldiers who strolled into lonely places were assassinated. Overseers of plantations and white laborers have been conscripted by the authorities and a general uprising is expected. The revolutionists are becoming more bold and are awaiting the yellow fever and vomit to continue a little longer its work to give the signal of attack. The negroes of late have displayed dissatisfaction, and many had left their masters and escaped to the mountains, where the revolutionists were congregating in large numbers. Thus war reigns supreme over the Island.

A Trinidad letter of April 21st states that the Spanish troops attacked a body of patriots near there on the 18th, but were routed. The Spanish convoy was captured near Los Tumas on the 15th. Several troops retreated to the town from whence they rallied attacking the patriots again. The patriots, however, made a detour, entered the town and captured the garrison there and took possession of the place. They found some artillery with which they armed two fortifications, which were immediately erected on their arrival. They were re-enforced by 250 men, whom the Spaniards held in confinement. On the 17th the Spanish troops presented themselves before the city, but were put to flight by the artillery of the patriots.

Proposed Revenue Regulations.

CHICAGO, May 18.—Commissioner Nosh, of Tennessee, has submitted to Commissioner Dolano a proposition to extend the revenue marine into the navigable waters of the Ohio, Mississippi and Missouri rivers, and other large tributaries, in aid of the internal revenue. It proposes that these streams be patrolled by swift steam tugs, fully equipped to check frauds in whisky and tobacco, which it is believed are carried on in these rivers to an alarming extent. Nosh also proposes the imposition of a tax of one cent on cotton as well as legislation by Congress, equalizing the exemption income tax so as to operate justly between the poorer and richer classes, by fixing a specific amount of exemption, and avoiding all items. It is believed the greatest frauds occur in income taxes, and in the avoidance as well as the misuse of stamps.

The opinion of the Court, in the case of Dyer, Chief of Ordnance Bureau, was promulgated that no further proceedings are necessary in the case. The report and opinion were approved and confirmed by the President, and the Court is dissolved. Col. Sturges, of the 7th cavalry, has been ordered to join his regiment in the Department of Missouri Gen. O. L. Shippen, Col. of the 15th Infantry, is ordered to Fort Concha, Texas, to join his regiment, en route to New Mexico.

The Postmaster General has ordered the mail to be sent to Bremen by the line of steamers from Baltimore direct to Bremen. The service will be performed every two weeks each way. The mails in other parts of the country will be sent under existing arrangements.

It has been decided to appoint C. H. Easton of San Francisco, Assistant Treasurer of the United States as Treasurer of the Branch Mint of the city.

Preparations are being made to reduce the force in the Secretary of the Treasury's office. About fifty dismissals will probably take place.

New York News.

NEW YORK, May 18.—Geo. Gibson, of Cedar Creek, California, died suddenly at a hotel on Bowery street yesterday. His effects consist of thirty thousand dollars and have been taken possession of by Coroner Glynn.

The fifty-third anniversary of the New York Sunday School Union was celebrated this forenoon in this city.

The case of Geo. B. Davis, indicted for perjury in making false affidavit against Collector Bailey, before Judge Benedict, was called to day. During the opening for the prosecution, Davis became fearfully excited, exclaiming "it's a lie." He finally drew a bottle from his pocket and swallowed its contents, and declared it to be poison, and that he would be dead in two hours. The case was adjourned until to-morrow to ascertain if the prisoner is playing off.

The Ways and Means Committee go to Philadelphia to spend a week in the Post Office. They will go to San Francisco, returning in August.

St Louis Items.

ST LOUIS, May 18.—An invoice of Japan tea was received to-day via the Union Pacific Railroad, only thirty days from Yokohama.

The annual meeting of the Grand Lodge of Odd Fellows of Missouri, met to day, a large number of delegates being present. Every lodge in the State is represented. The Order has largely increased during the year. The finances are in a flourishing condition.

Odds and Ends.

The highest salary paid to a teacher in the Philadelphia schools is $1,650.

The 30th of May, is the day set apart for decorating the graves of our soldiers who died in the late rebellion.

Thin Man.—"Boy, what's that hungry dog following me for?" Boy.—"He thinks you are a bone, I reckon."

Texas has now within her borders more than 3,000,000 head of cattle, and can export annually 1,000,000 beeves.

Mosquito is a word of Spanish origin. It has been spelled no less than fourteen different ways since the discovery of America.

The death rate in the overcrowded part of New York city is nearly twice as heavy as in those portions where people are well housed.

A writer on surnames says all the Reads, Reeds or Reids were originally *red* men. Bunker was so named from his good heart (bon coeur.)

The New York *Commercial* says the first question that disturbed man was the "woman question," and thinks it bids fair to be the last.

New York is favored with the presence of a Norwegian giant, eight feet high, sixty two inches around the chest, and weighing 456 pounds.

The Hartford bridegroom who courted eighteen years, is reported to have said that he felt pretty well acquainted with the girl, or he would not have got married.

Will asked old "ten-per cent," what he wanted to accumulate so much money for. Says he "You can't take it with you when you die, and if you could it *would melt*."

A shrewd but unenlightened school director, away out West, used to say, on examining a candidate for the post of teacher, "We all know that a, b, c is vowels, but we want to know why they is vowels."

A Southern paper is opposed to the education of women as surgeons. It says that, suppose one were put under the influence of chloroform by such a doctor, "what is to prevent the woman from kissing you?"

A Boston dispatch May 11th says About 1,500 persons attended Riverside Park to-day to witness a contest between Walter Brown, the oarsman, on a velocipede, and the horse John Stewart—Brown to go five miles, the horse, in harness ten. Brown won, making his five miles in 26 20, the horse going five miles in 26 35.

An old farmer in Ohio, having read that the State Penitentiary cleared seven thousand dollars during the last year by the labor of the convicts, sat some time in deep thought, and then exclaimed "I think we'd better turn our Legislature into a penitentiary, by jingo!"

A. M. Clapp, of the Buffalo *Express*, has been made Congressional Printer, in place of John Defrees. Since his election, however, it appears that he is ineligible to the office, according to the act of June, 1860, which reads as follows "Neither the Superintendent nor any other officer to be appointed under this act shall, during his continuance in office, have an interest, direct or indirect, in the publishing of any newspaper or periodical, or any printing of any kind." The penalty for violation of the law is imprisonment in the penitentiary for not less than one nor more than five years, and a fine of $500.

Long Wools.

The *Alta California* of a late date has an article on sheep and wools from which we make some extracts. The *Alta's* remarks will apply just as well in Oregon as in California

The Cotswold deserves more attention than it has received in this State, and, in fact in the United States. The assertion has been circulated that the long wool varieties will not thrive in the Eastern States but it was started in districts that had large numbers of fine Merino sheep for sale, and we are unable to find any facts to justify the idea. The Cotswold and Leicester thrive in Canada, and a few of them bred in New York are doing well there. Western Oregon and Washington have the precise climate of England, and should introduce the Cotswold without delay, to the exclusion of every variety. There are several herds of Cotswolds in California, and their success here is complete. We do not hesitate to advise the farmers of this State to consider this question of long wools carefully. It is a matter of public as well as private importance. E. R Mudge, one of the United States Commissioners to the World's Fair, made a comprehensive, careful and able report on wool, in which he says:

"The possession, by England, of the long-wooled races of sheep was the foundation of her manufacturing supremacy, the worsted manufacture supplied by this wool far surpassing that of clothing wool, and having opened the manufacture of cotton. More than half the wool in England, whose annual product is 250,000,000 pounds, is used for combing purposes, no wool of the Merino race being produced. There is no more important question to American agriculture and manufactures, and no one more nearly related to the vital question of cheap sustenance, than the inquiry whether the long-wooled mutton sheep shall be produced abundantly in this country. The present consumption of this wool is about 6,000,000 pounds. The extension of the manufacture, which has been mechanically successful here, is limited by the supply of the material; were this abundant the combed wool industry would soon take its place by the clothing industry and double the products of the woolen manufacture."

The statements of facts here made are incontrovertible, and the inferences are just and of great significance. They apply to California just as well as to the nation at large, and we can here introduce the combing wool more rapidly than the Eastern States can.

THE EAST.

The Massachusetts Senate have stricken lager from the list of intoxicating drinks, forbidden by the prohibitory law. The House had previously exempted cider.

The gentle sisters of the Sorosis at New York a few evenings ago invited a number of their male brethren to tea and talked at them four hours, without affording the least opportunity for reply. The suffering fellows say it was the worst teasing they ever got.

General Howard is continuing the educational work at the South, commenced by him while he was at the head of the Freedmen's Bureau. The recent reports of the different State Superintendents all show a desire on the part of the whites to have the colored children educated.

At Vermont, Fulton county, Ill., a short time ago, a little son of J. H. Harris, aged thirteen years, was found suspended by the neck with a strap, in his father's barn quite dead. In the afternoon of the same day, a son of Colonel Tenny was found hanging in the same manner. No cause can be assigned for these coincident acts of self destruction.

Illinois, according to the Chicago *Tribune*, is to be held to the redemption of a debt amounting in the aggregate to twenty millions of dollars—the interest upon which it has already assumed—because towns and counties that carelessly and ignorantly loaned their credit to wild-cat railroad schemes, find that they made hard bargains, which it would be very inconvenient to fulfil, and therefore rush to the Legislature for relief.

The N. Y. *Times* complains that "the most offensive, humiliating and abominable objects in the city of New York are its markets—the places where the people's food, their meat, their vegetables, fruit and fish, are bought and sold. We never saw anything like them in any other American city, or anywhere in the world. Their influence is degrading, and their existence disgraceful."

Demagogues and mischief-makers, says a Portland (Maine) paper of May 1st, are talking about a war with Spain on the Cuban question. What do we want of Cuba, especially at the cost of a war? As to Spanish outrages, there will be no trouble in settling those affairs if moderate counsels prevail. But our Bankses and Chandlers must make themselves prominent by stirring up strife, no matter at what cost to the nation.

Varieties.

With reference to the child with no back bone, who is reported to have recently died in Ohio, the Boston *Post* says that by his death "the State lost admirable material for a member of Congress."

Two ladies in Lancaster (Mass.) lately started out with petitions: one for signatures, asking the Legislature to give women the privilege of voting, the other praying the Legislature to allow women to remain in their present sphere. The latter ran ahead twenty-six to one.

Miss Mary Grant, of Richmond, was married in that city on the 20th of April to a Mr. Ford, of Goochland county (Va.) It will be remembered they were the subjects of an article in the *Southern Opinion*, which resulted in the killing of its editor—H. Rives Pollard.

The Philadelphia boot and shoe manufacturers are generally very busy, and thus far Philadelphia is ahead of other markets in the demand for misses' and children's shoes made from colored morocco. The goods of all kinds made this season are of better quality than formerly, and orders come in briskly.

It stated that one inch in depth of rain falling on an acre of ground, will amount in all to 226, 225 imperial gallons, or about 100 tons in weight. The quantity of rain under consideration is 6,272,640 cubic inches, and the imperial gallon weighs ten pounds averdupois, and is of the capacity of 277,274 cubic inches.

A NOBLE WOMAN'S WORK.—Congress in 1866, appropriated the sum of $15,000 toward the expense of hunting up missing soldiers of the United States Army. This appropriation was placed in trust of Clara Barton, one among the many noble women who devoted their services to humanity, christian benevolence, and heroism during the war, with no other aim and purpose than to do good. During the war a very large number of our soldiers disappeared from view, without leaving behind them the least record. The best information obtainable leads to the belief that 40,000 men, who served in the army, are still unaccounted for. What a comment upon the glories of war! And unquestionably as many thousand of the Confederate dead lie in unknown graves.

This noble woman devoted her energies to the labor of this search, commencing in the Spring of 1865. It will afford some idea of the magnitude of the work undertaken to state that the letters of inquiry, and those giving information, amounted to 63,182. Nearly sixty thousand circulars of advice were issued, and 40,000 letters were written. According to the best information former of information obtained at the end of the year 1868, information has been transmitted to families of over 22,000 men, whose names were upon the rolls of the United States as missing.

A party of men were surveying for a railroad in New Jersey, and of course they were entitled to the best along the line. At one house they thought the proprietor was a little tardy in producing the cider. It came at last, and was tasted by one of the party with great deliberation. "How much cider did you make this year?" he asked.

"Fifteen barrels," was the answer.

Another sip. "Well, if you had another apple you might have made another barrel."

The editor of the Detroit *Press* seems to envy the Patagonians who wear no clothes, because "all they earn goes as spending money."

Defective Construction of the Union Pacific Railroad.

A correspondent of the San Francisco *Bulletin*, writes from Ogden (May 9th,) as follows

After traveling over part of the road between this point and Echo four times, and the rest twice in a position to see every rail and tie I can say of the earthwork that, if it is not the worst piece of road in the world used for passenger traffic, it is, by far, the worst I ever saw. The passengers who know most about railroading and take the most notice, are the most timid. The earthbanks in many places are not so wide as the ties. Instead of being 15 feet, where the road has been cut out of the side of the hills, the loose ground seems to have subsided; and even where the line is straight, the cars frequently bend toward the river. There is not sufficient width of embankment to cover the tie ends in places where you have a roaring torrent 50 to 75 feet below you. In many places—indeed, I might almost say as a rule—the banks have not been enough to give them solidity. A second view of the road along the clay and sand banks above the Weber—between the mouth of the canyon and Ogden—confirms me in the opinion expressed yesterday. In that part, there is, in addition to the danger of the road bed, with the train, sliding into the river, that of the banks above on the land side coming down on the rails even in dry weather. The company keep two watchmen on the ground.

Add to all this that the material was thrown together in frosty weather and has since settled so that the rails are neither straight nor level, and it can readily be accounted for that though the Company has a wrecking train on the road, 36 wrecks have been counted this week between Wasatch and Ogden. The building of this road is extraordinary in some things. In its cut sandstone culverts and bridge piles, and its neatly painted water tanks, it is superior to the Central Pacific. Its trestle work and bridges, where they have been finished, appear sound and substantial; but from Wasatch to Ogden there is for 10,000 men for months to remake the road bed and straighten the metal. The Company's employes appear to take every precaution to avoid accident, and run very slow with a man lookout when they have passengers. By this means, since the Green river accident, no passenger has been hurt to my knowledge, and no broken passenger cars are seen on the roadside. The directors reiterate their intention of making a first-class road of it, but compared with the work needed to be done except on the bridges, there are few men to be seen. Dr. Durant says they want first the frost all out of the ground before they can level up the road.

The secret of all this bad work appears to be want of money. A contractor's agent told me that many of the contractors dared not be seen around among the men; also that many contractors' foremen had been shot, and some hung by the men. In the Echo Canyon camps, life was held as cheap as in Promontory Valley, and men were shot on the most trivial provocation. A contractor informed me this morning that the company owed him $240,000, and that there would be a demonstration by the unpaid men at the last rail celebration. He estimated the total liabilities of the Union Pacific Railroad to the contractors at eight or ten millions.

The New York *Tribune's* Montreal special says "the desire of the people for the Dominion to cut loose from dependence upon the mother country has received a powerful impetus from one or two great events, and whatever course may finally be adopted, there is little doubt that a great local change of some sort is not far distant. Several private meetings of influential persons have recently been held here for the purpose of considering the great question of a change in the form of government. General dissatisfaction with the present state of things is more and more openly expressed. The newspapers are at last beginning to meet the question face to face, and giving utterance to a sentiment which has long been widely dispersed among the people, although few have had the courage to express it. A party are in favor of independence, but a larger party, I believe, aim at annexation to the United States and will soon make itself prominent. The acquisition of the Hudson Bay territory has given additional force to the arguments of the annexationists that such a magnificent domain as the new Dominion now promises to be ought no longer to be dwarfed and kept down by dependence on a trans-Atlantic government. The proposition that Great Britain shall surrender her North American possessions as a set-off against the *Alabama* claims, created a deep sensation in certain circles, and many regard it with decided favor.
